

FOR IMMEDIATE RELEASE

CariFree pHluorigel

CariFree pHluorigel combines the proven anti-caries benefits of 5000ppm sodium fluoride with a therapeutic dose of xylitol and CariFree's patent-pending pH+ technology in a completely non-abrasive, refreshing tooth gel. When you brush with pHluorigel, you'll find a minty, foaming gel that leaves your breath fresh and your teeth feeling clean and smooth. This product contains the most powerful anti-caries therapeutics for an all-in-one cavity-fighting powerhouse! Dentists may recommend brushing with pHluorigel 1-2 times daily, or wearing in a tray appliance for increased exposure.

Each box contains one 2 fl oz (60mL) bottle.
